In telephonic conversations between the Examiner and the below-signed patent agent, Tod A. Myrum, on September 22, 2005 and September 25, 2005, an agreement was reached regarding the pending claims. It was agreed that the case would be allowable if claims 35-38 were canceled and claim 39 was amended to be directed to a method of forming a cavitation layer of a print head and to add the limitation "different from the first portion" to the second clause, remove the limitation "and not on the cavitation layer" from the fourth clause, and limit the fourth clause to forming a third dielectric layer "only" on the second portion of the second dielectric layer.

The Examiner is invited to contact the below-signed patent agent at direct dial (612) 312-2208 if there are any changes or questions regarding this Examiner Interview Summary or if prosecution of this application may be assisted thereby.

Respectfully submitted,
